

# BUSINESS CENTRAL INTEGRATION CATALOG

**SOLVING YOUR BUSINESS PROBLEMS  
ONE INTEGRATION AT A TIME**

Contact us to learn more!

## ECOMMERCE WEBSITE INTEGRATION

Connect customers to your products or solutions. Create a customized website that will allow customers to purchase, submit orders and receive confirmations based on real-time inventory & pricing from BC.

## ON PREM LABEL PRINTING

This customizable feature allows you to seamlessly print RFID labels, as well as other label technologies, from your BC system by tunneling into your local printers.

## INTEGRATING BUSINESS PROCESS

Customize BC to enable your internal processes where the out of the box solution just doesn't quite fit. Use case examples include loading products, product bundling and transportation routing.

## USER CUSTOMIZABLE REPORTING

Connect your existing data sources, along with BC data, to create a wholistic view of your business. These integrations empowers shopfloor workers to streamline their daily tasks.

## CUSTOMIZE BC REPORTING FOR BUSINESS NEEDS

BC not delivering exactly what you need? Leverage internal custom data and tailor out of the box BC reports to solve your specific data requirements.

## CONNECTING DATA TO & FROM BC

Seamlessly import and export inventory, financial, sales, orders, and pricing data from BC to integrate with your other solutions, vendors, or customers.

## SIMPLIFIED SCHEDULING FROM ONE LOCATION

Interact with a visual drag and drop calendar to easily schedule jobs and resources in real-time. Can be integrated to SharePoint or a website.

## EASIER TO USE SCREENS WITH RELEVANT DATA

Tailor BC screens to prioritize fields, enable ease of use or add security access to certain data.

## VISUAL DASHBOARDS TO ENABLE DECISION MAKING

Utilize Power BI to develop highly visual dashboards that provide leadership with real-time data access, facilitating swift and informed decision-making.
